Environmental Noise	9.30am	Registration
Measurement Guide where members of the working group will talk about the updates Following that we look at environmental/industrial modelling and consider 'When blasting is not blasting' with reference to the Corsham public inquiry, presented by Ed Clarke (Clarke Saunders).  Concluding with a look at two future acoustic issues:  • Electric vehicle sound presented by Matt Muirhead (AECOM)  • Air source heat-pumps by Nick Frost (WSP)  11.10am  Refreshment break  Acoustics for Inclusion  Setting the scene for this session is Nuala O'Sullivan, Access Consultant (Arup), followed by a look at some case studies from performing arts venues presented by Ed Elbourne (Arup).  Next we review current standards and guidance on acoustics that relate to accessibility and inclusivity, and standards and guidance on accessibility/inclusivity that can be incorporated into acoustic design/assessment presented by Thomas Goose (Gt. Hearn)  Clare Taylor, Specialist Teacher for Hearing Impairment, considers acoustic conditions within everyday spaces and could more be done to improve acoustic conditions for users with hearing impairment.  Concluding this wide ranging session is Dr Lore Thaler (Durham University) on Echo-location.  12.45pm  Awards Shortlist presentations: Acoustics for Inclusion  1.10pm  LUNCH  2.00pm  Awards Shortlist presentations: Building Acoustics  Buildings & Planning  Tony Gallagher, MRTPI (Quod Planning) will provide an update on law changes on planning/prior approval; and discuss the differences between permitted development and planning.  Toby Lewis, MCIEH (WSP) considers planning class implications and what the EHO might be expecting from acousticians.  To conclude Chris Turner (Adnitt Acoustics) looks at case studies on office to residential conversions including a review of the specific noise and acoustic issues, including the open window correction and limitations to improving external sound insulation.  3.40pm  Refreshment break  Acoustic Awards 2021  Bridget Shield MBE will give a short talk prior to pres	10.00am	Environmental Noise
